DBS BANK INDONESIA

Management Associate Program Responsibilities

The Management Associate Programme (MAP) is a leadership development programme that seeks and hones the sharpest minds to take on leadership roles in DBS. It is our most comprehensive training programme for the future leaders of Asia's booming banking industry.

Over a course of 24 months, you will have the opportunity to gain exposure to different business areas within the bank under a rigorous and holistic programme.

The programme structure prepares you to go higher in Asia with:

Four weeks of Campus Training at the start
Three 7-month stints across different business areas

An overseas stint for the Top MA of the cohort
As a Management Associate, you will receive comprehensive training and development covering three key areas: Experience, Education and Relationship.

Experience-based Development

The best person to decide your career path is YOU. As a Management Associate, you will be assigned a Programme Manager to work with you to design your Individual Development Plan based on your ambitions and our business priorities. This will include on-the-job training involving experiential learning across different roles.

Education-based Development

Your journey will begin with a rigorous and structured induction programme held in August at the DBS Headquarters in Singapore.

Relationship-based Development

As part of this elite, high-profile programme, you will also meet fellow management associates in the region as you build your own professional network. Opportunities to interact with senior management and the company's top leaders will be provided to give you the best banking career in Asia - bar none.

Requirements

Possess Bachelor or Master degree from reputable local/overseas university, with minimum GPA at least 3.0 preferably majoring in Accounting, Banking and Finance, Business and Commerce, Marketing & Sales, Engineering, or IT/IS.

Fresh graduate up to maximum 2 years working experience.

Good command of English (verbal & written).

Not more than 27 years old by end of the year.

Apply Now

We offer a competitive salary and benefits package and the professional advantages of a dynamic environment that supports your development and recognises your achievements.

Graduate Associate Program Technology & Operations

Responsibilities

For those with a passion for ideas, this 2-year programme offers you the opportunity to specialise in the technology and operations businesses, and develop expertise that will prepare you to drive innovation in the banking industry.

The structured learning programme entails:

- Six weeks of Campus Training
- Two 11-month stints across different areas in Technology and Operations

As a Graduate Associate, you will undergo rigorous training to build banking and finance, project management and personal development skills to be an effective people manager. Specifically designed job rotations will give you a deeper understanding into the different functions across the technology and operations businesses. We will also provide mentorship and networking opportunities with Senior Management that will broaden your horizons and sharpen your innovative edge

Requirements

Possess Bachelor or Master degree from reputable local/overseas university, with minimum GPA at least 3.0 preferably majoring in Accounting, Banking and Finance, Business and Commerce, Marketing & Sales, Engineering, or IT/IS.

Selected applicants should also possess strong leadership qualities as exhibited in their Extra Curricular Activities / business start-ups and consistently having pushed themselves to excel and stepped out of their comfort zones.

Highly adaptable and possess strong interpersonal / communication skills.

For candidates with an interest in Technology roles, a degree in Information Technology, Electrical/Computer Engineering, Computer Science, or any degree with extensive programming modules is required.

Apply Now

We offer a competitive salary and benefits package and the professional advantages of a dynamic environment that supports your development and recognises your achievements.

We regret only shortlisted candidates will be notified.

If you're interested, you can send your CV and resume to fazlin@binus.edu before 11th May 2016
