UsahaSosial.com

Job Summary

PLUS (www.usahasosial.com) aims to be the first online ecosystem orchestrator to empower Indonesia's Social Enterprises. It will connect and bring together social enterprises, impact investors, enablers and experts. The platform is a partnership between the BCG (Boston Consulting Group) and GEPI (Global Entrepreneurship Program Indonesia) and cofounded By several high profile industry partners. As the Frontend Developer of our PLUS platform, you will be an expert in combining the art of design and programming. You will work with our UI/UX Developer to translate wireframes into code, creating the visual and interactive elements of our online platform. You will take an active role in both the graphical design and technical implementation, in order to create a user friendly experience. You will be required to create pages and interfaces that allow our users to find information quickly and easily; a seamless process of being connected to a directory of resources and other users.

Responsibilities (Front End Developer)

- Collaborate with other team members and stakeholders
- Coordinate with team members to develop interactive designs and technologies
- Report to the IT Manager
- Build reusable code and libraries for future use
- Ensure technical feasibility of UI/UX designs for effective user integration
- Perform quality assurance and browser computability tests
- Optimize application for maximum speed and scalability
- Assure that all user input is validated before submitting to backend
- Monitor and ensure high quality control on both designs and code for website

Technical Qualifications

- Proficient understanding of web markup, including HTML5, CSS3
- Proficient understanding of clientside scripting and JavaScript frameworks, including jQuery and React
- Good understanding of Bootstrap, Reactbootstrap and Javascript
- Good understanding of asynchronous request handling, partial page updates, and AJAX
- Basic knowledge of image authoring tools, to be able to crop, resize, or perform small adjustments on an image. Familiarity with Adobe Photoshop is a plus.
- Proficient understanding of crossbrowser compatibility issues and ways to work around them
- Proficient understanding of code versioning tools
- Good understanding of SEO principles and ensuring that application will adhere to them
- Bachelor degree in Computer Science, Design or related field
- Professional working experience of 3+ years

Personal Qualifications

- Indonesian citizen, ability to speak and understand professional English is required
- Ability to work and communicate effectively within a team (you will be part of a 4person development team)
- Time management skills
- Proactive thinking and initiative
- A proven interest in entrepreneurship/Social entrepreneurship is a plus

Details

- Fulltime position
- Contract length: 6month with opportunity for contract expansion
- Salary: Above Market rates
- Location: Based in Jakarta Selatan, Kuningan, Ciputra World I
- Start date: Immediate
- Application deadline: Applications will be accepted until the position is filled

How to apply : Please email a cover letter along with your CV to joinus@usahasosial.com and cc to fazlin@binus.edu

UsahaSosial.com
