DBS BANK

Management Associate Programme (MAP)

Responsibilities

The Management Associate Programme (MAP) is a leadership development programme that seeks and hones the sharpest minds to take on leadership roles in DBS. It is our most comprehensive training programme for the future leaders of Asia's booming banking industry.
Over a course of 24 months, you will have the opportunity to gain exposure to different business areas within the bank under a rigorous and holistic programme.

The programme structure prepares you to go higher in Asia with:

Four weeks of Campus Training at the start
Three 7-month stints across different business areas
An overseas stint for the Top MA of the cohort

As a Management Associate, you will receive comprehensive training and development covering three key areas: Experience, Education and Relationship.

Experience-based Development

The best person to decide your career path is YOU. As a Management Associate, you will be assigned a Programme Manager to work with you to design your Individual Development Plan based on your ambitions and our business priorities. This will include on-the-job training involving experiential learning across different roles.

Education-based Development

Your journey will begin with a rigorous and structured induction programme held in August at the DBS Headquarters in Singapore.

Relationship-based Development

As part of this elite, high-profile programme, you will also meet fellow management associates in the region as you build your own professional network. Opportunities to interact with senior management and the company's top leaders will be provided to give you the best banking career in Asia - bar none.

Requirements

Preferably Master Degree from reputable local/overseas university
Minimum GPA 3.0 or 2nd Class Lower Honours
Preferably majoring in Business, Economics, Engineering, Natural Science and Mathematics.
Maximum 2 years working experience.
Not more than 27 years old by end of the year.

Apply Now

We offer a competitive salary and benefits package and the professional advantages of a dynamic environment that supports your development and recognises your achievements.

**Graduate Associate Programme (GAP)
Technology & Operations**

Responsibilities
For those with a passion for ideas, this 2-year programme offers you the opportunity to specialise in the technology and operations businesses, and develop expertise that will prepare you to drive innovation in the banking industry.
The structured learning programme entails:
Six weeks of Campus Training
Two 11-month stints across different areas in Technology and Operations

As a Graduate Associate, you will undergo rigorous training to build banking and finance, project management and personal development skills to be an effective people manager. Specifically designed job rotations will give you a deeper understanding into the different functions across the technology and operations businesses. We will also provide mentorship and networking opportunities with Senior Management that will broaden your horizons and sharpen your innovative edge

Requirements
• Possess Bachelor or Master degree from reputable local/overseas university, with minimum GPA at least 3.0 preferably majoring in Engineering, IT, MIS or Computer Science
•Fresh graduate up to maximum 2 years of working experience
•No more than 27 years old
•Selected applicants should also possess strong leadership qualities as exhibited in their Extra Curricular Activities / business start-ups and consistently having pushed themselves to excel and stepped out of their comfort zones.
•Highly adaptable and possess strong interpersonal / communication skills.

KOOL ASIA TEKNOLOGI

PT KOOL ASIA TEKNOLOGI is part of the Singapore-based "**COOLASIA TECHNOLOLOGY**" company. The company is popular for its leading fleet management system, logistics and supply chain software. We consult, develop and train Business-to-Business (B2B) software that improves organization's ability to plan, optimize and deploy fleet operation leading to increased productivity.

The company embraces Lean Management and this explains our flat organization with little or no bureaucracy. Established in 2005, we have offices in Singapore, Malaysia and Indonesia.

WHY JOIN US?

Since 2005, we are riding on the rising wave in Internet-of-Things, Machine-To-Machine, Supply-Chain and other exciting technologies in the Business-to-Business domains. We have developed (and still developing) innovative web applications that help to address business challenges that traditionally undermine organization's ability to perform and operate optimally.

With this vision, our mission is to create full suites of B.2.B software such as Fleet Manager, Fleet on Cloud, Apptimice, Apps Courier and more for businesses (Just like Panadol to headache, Paracetamol to fever). All our effort is focused on how to solve the complexity of today's supply chain operations with the simplicity of web and mobile technologies.
